

FORMS OF CONTROL

1. Current control. Verification of the completion of practice on the basis of the pharmacy and verification of practice diaries, assessment of practical skills acquired by higher education institutions. The teacher conducts this type of control on the basis of practice, in a pharmacy or at the department.
2. Semester modular control (a test survey covering questions on practical skills and theoretical knowledge of Pharmacy based Technology of Drugs, as well as a check of the correctness of filling and design of practice workbooks).

Assessment of the educational component:

Assessment of the student's progress in the educational component is a rating, exhibited on a 100-points scale and has a definition for the ECTS system and according to the traditional scale adopted in Ukraine/

The maximum number of points that can be obtained is 100 points.

- • **60 points** - for production work in a pharmacy, the result of which is keeping a diary (10 points for each topic - solid, liquid, soft, sterile, including ophthalmic dosage forms, for the preparation of internal pharmacy preparations and 10 points for the section "Acquaintance with a pharmacy", i.e. sanitary regime, pharmaceutical procedure, obtaining purified water).
- • **40 points** - according to the test results.
